

Program

INTERNATIONAL CONGRESS

„Building Road Safety Capacity”

2-4 October 2013

2 October

12:00-14:00	Lunch
	ROOM A
14:00-14:30	Opening speeches <ol style="list-style-type: none"> 1. GDDKiA – Lech Witecki, General Director for National Roads and Motorways, Poland 2. PIARC – Jean-François Corté, Secretary General, PIARC 3. World Bank – Xavier Devictor, Country Manager for Poland and the Baltic Countries
14:30-16:00	Plenary session: National road safety policies - cases studies <i>Moderator Radosław Czapski, Bank Światowy, Polska</i> <ol style="list-style-type: none"> 1. National Road Safety Programme 2013-2020, Maciej Mosiej, National Council of Road Safety, Poland 2. UN Global of Action for road safety, Hans Joachim Vollpracht, World Bank Road Safety Audit and Road Work Safety in Kazakhstan, Germany 3. Comparison of national road safety policies and plans - George Mavroyeni, VicRoads, Australia
16:00-16:30	Coffee break
16:30-18:00	Plenary session: Safe System Approach <i>Moderator Tawia Addo-Ashong, World Bank, Washington</i> <ol style="list-style-type: none"> 1. PIARC – Brendan Marsh, Main Roads Western Australia, Australia 2. World Bank – Tawia Addo-Ashong, USA 3. General Directorate for National Roads and Motorways – Andrzej Maciejewski, Poland 4. European Commission, DG MOVE – Paweł Stelmachczyk: Smart Infrastructure – instruments supporting infrastructural innovative solutions for the improvement of mobility and traffic safety in the framework of the EU Transport Policy (White Paper, TEN-T Guidelines and Connecting Europe Facility)
18:00-19:00	Dinner, Galeria Porczyńskich
19:00-21:00	Sightseeing of Warsaw -> Transfer to the hotel

3 October

9:00-9:15	ROOM A Official Opening of the 2nd day of the Congress: Speech of the Minister of Transport, Construction and Maritime Economy, Mr Sławomir Nowak	
	ROOM A	ROOM B
9:15-10:30	1. session: Road Safety Audit as a tool of safety of road traffic <i>Moderator Marian Tracz, Cracow Technical University, Poland</i> <ol style="list-style-type: none"> 1. Methods of management of road infrastructure safety based on the risk, Kazimierz Jamroz, Gdańsk Technical University, Poland 2. Road Safety Audit Guideline, Lise Fournier, Ministry of Transport, Canada Quebec 3. Experiences in introducing road safety audit in Poland, Marian Tracz, Cracow 4. The first road safety audit training courses in Hungary, Attila Borsos, Gyoer University, Hungary 	2. session: ITS as effective tool in improving road traffic safety <i>Moderator Marek Litwin – ITS Poland</i> <ol style="list-style-type: none"> 1. Road traffic safety and ITS - review of EU projects, Wojciech Suchorzewski, Warsaw Technical University, Poland 2. ITS measures in the management of crisis events on the example of the City of Toronto, Roberto Stopnicki, Canada 3. Use of ITS in road management on road network in England, Chris Lines, UK 4. Actuarial research on the effectiveness of Collision Avoidance Systems FCW & LDW Ron Shachar, Israel
10:30-11:00	Coffee break	
11:00-12:30	3. session: Effective management of roads and traffic for the sake of road traffic safety <i>Moderator Mike Griffith, Federal Highway Administration, USA</i> <ol style="list-style-type: none"> 1. Polish experiences in conducting road inspections including identification of threats on the road, Marcin Budzyński, Gdańsk Technical University, Poland 2. Training and certification of Road Safety Experts for the application of Road Safety Audit and Road Safety Inspection procedures to selected secondary roads, Xavier Cocu, Peter Saleh, Belgium, Austria 3. Road Safety Audit in Slovenia, Uros Brumec, Company for Development of Infrastructure Ltd., Slovenia 4. Management of dangerous road sections in Estonia, Andres Piibeleht, Estonian Road Administration, Estonia 	4. session: Signs and variable message signs as a tool to improve road safety <i>Moderator Wojciech Suchorzewski, Warsaw Technical University, Poland</i> <ol style="list-style-type: none"> 1. VMS EasyWay ESG4 (VMS Harmonisation), Antonio Lucas-Alba, Spain 2. Influence of communication systems on driver's behaviour in shaping messages on variable message signs, Tadeusz Rotter, Cracow Academy, Poland 3. Assessment of message legibility on VMS tables, Kazimierz Jamroz, Gdańsk Technical University, Poland
12:30-14:00	Lunch	

	ROOM A	ROOM B	ROOM C
14:00-15:30	6. session: Effective management of roads and traffic for the sake of road traffic safety <i>Moderator Kazimierz Jamroz, Gdańsk Technical University, Poland</i> <ol style="list-style-type: none"> 1. ASAP (Appropriate Speed Save All People) project dealing with Speed management in Work Zones, Lorenzo Domenichini, University of Florence, Italy 2. Rural speed management (effective treatments for managing speeds on rural roads) and Urban arterial speed management, Blair Turner, ABB Group, Australia 3. Methodology of defining section of roads to cover with automatic surveillance over dangerous speed, Kazimierz Jamroz, Gdańsk Technical University, Stanisław Gaca, Cracow Technical University, Poland 	5. session: Shaping of safe behaviours of the participants of road traffic through infrastructural means, control and education. <i>Moderator Lars Ekman, Trafikverket, Sweden</i> <ol style="list-style-type: none"> 1. Human factors/spatial perception of the environment, Daniel Aubin, DESSAU inc. Canada Quebec 2. The big challenge to improve safety for vulnerable road users, Lars Ekman, Trafikverket, Sweden 3. Roads that 'talk' to the users, Obio Chinyere, Traffic Safety Council, Zimbabwe 4. Roads of Trust – the programme of protection of people's life and health on national roads, Łukasz Skorupski, GDDKiA, Poland 	Workshop: Driver distraction and fatigue with a focus on road engineering solutions - contribute to the developing work. <i>Brendan Marsh</i>
15:30-16:00	Coffee Break		
16:00-17:30	7. session: Engineering solutions and their influence on effectiveness and safety of road traffic <i>Moderator Hans Joachim Vollpracht, World Bank Road Safety Audit and Road Work Safety in Kazakhstan, Germany</i> <ol style="list-style-type: none"> 1. Treatment of linear settlements along highways, Hans Joachim Vollpracht, World Bank Road Safety Audit and road Work Safety in Kazakhstan, Germany 2. Current problems and tendencies in roundabouts design, Marian Tracz, Cracow Technical University, Poland 3. Engineering solutions and their influence on effectiveness. Lithuanian experience, Egidijus Skrodenis, Lithuania 	8. session: Vulnerable road users <i>Moderator Steve Proctor, University of Warwick, UK</i> <ol style="list-style-type: none"> 1. Motorcycle Safety, Jamilah Mohd Marjan, Malaysia 2. Safe to School – Safe to Home, Boris Polegnow, GRSP Poland 3. Vulnerable Road Users in UK, Steve Proctor, University of Warwick, UK 4. Leading road users towards (self) responsibility, Volker Fröse, ASTRA, Switzerland 	Workshop: Accident investigation – contribute to the developing update of the PIARC guidelines <i>Daniel Aubin, DESSAU inc. Canada</i>
19:30	Gala Dinner, Radisson Blu Sobieski Hotel, Marysieńka Restaurant		

4 October

	ROOM A	ROOM B
9:00-10:30	9. session: Engineering solutions and their influence on effectiveness and safety of road traffic <i>Moderator Francesca La Torre, University of Florence, Italy</i> <ol style="list-style-type: none"> 1. Influence of chosen factors on the safety of road traffic on the section of roads, Stanisław Gaca, Mariusz Kieć, Cracow Technical University, Poland 2. Influence of geometric solutions and cross-section on safety, Francesca la Torre, University of Florence, Italy 3. Factors influencing traffic safety on intersections and national road junctions in Poland, Lucyna Gumińska, Gdansk Technical University, Poland 	10. session: Road Safety Manual PIARC <i>Blair Turner, Mike Griffith</i> PIARC
10:30-11:00	Coffee break	
11:00-12:30	Plenary closing session – panel discussion: Actions taken and building road safety capacity <i>Moderator Brendan Marsh</i> <p>Jean-François Corté, Secretary General, PIARC Tawia Addo-Ashong, World Bank, USA Andrzej Maciejewski, General Directorate for National Roads and Motorways, Poland</p>	
12:30-14:00	Lunch
